

**The past 2 months I have rented office space and conference space at Encompass C3. I found it very helpful to me in many ways. I do health presentations and it is important to me that my guests are both welcomed and comfortable. The 5 times I held presentations there, my guests commented several times what a great feel to the place and that they felt welcomed when arriving and believed the facilities were very adequate.**

**I enjoy the helpfulness from the staff whether it is for copies, name tags, greeting my guests or IT support and of course their professionalism they continue to display. It feels like a warm coffee/business center to me that meets a wide range of needs. I hope you will definitely stop in for a tour and check it out for yourselves.**
