

As more of us break out of the cubicle and take our businesses wireless, we still need occasional access to a virtual office for meetings, conferences, and interaction with other motivated professionals. Encompass C3 is the solution, not only because of the variety of beautiful meeting and temporary office spaces, but because the staff is determined to ensure I have everything I need, from technical assistance to free gourmet coffee. With Encompass C3, I can still do my own thing, and look professional doing it. What an asset for Omaha!
