

Testimonial from Wendy Zikas, Director of Sales, V3 Technology Solutions, Inc.

I have witnessed and participated in numerous events at EncompassC3. In my personal experience I have been extremely pleased with each and every one. They have ranged from a lunch with 50 Business Development Alliance Members, to my weekly networking group that meets at lunch time every Monday, and finally to holding my own special presentation for clients in the large conference room. We were always greeted with a smile and extreme professionalism. I know that each time I enter their building it will always be that way. They provided each event organizer with all their office needs, supplies to help their lunchtime run smoother, to the technology needed to present a new product to my clients. It's an amazing place that can handle so many events and meetings for the small business person. I would highly recommend EncompassC3 to any of my business contacts that would be in need of a wonderful gathering place for all their company's operational needs.
